

Brian Braden -- Biography
Chief Technology Officer
Angelo State University

Since 2000, **Brian** has served as one of the leaders of the Information Technology team at Angelo State University (ASU). Brian and his team of professional staff and students are responsible for the delivery and support of the campus technology services for students, faculty and staff. He and the ASU team have led the implementation of security-related initiatives to protect the campus from the evolving threats to the ASU data environment. In addition, Brian and team are responsible for the delivery and support of technology services that improve campus efficiencies and the overall student learning environments.

Prior to his role at Angelo State University, Brian worked at the Education Service Center - Region 15 in San Angelo leading a team that was responsible for the delivery of technology services to the surrounding 43 K-12 school districts. Brian began his career at International Paper in Memphis, Tennessee working in their IT division supporting their networks and computer systems for the paper product division. Brian received his degree in Computer Science with a Business Management minor from Texas A&M University.

Brian has served on various university, local, and state-wide committees and organizations over the years. He is currently a member and was the chair of the Texas Connection Consortium Leadership Council which has a primary purpose of fostering collaboration among 40 institutions while providing leadership in the strategic planning and decision making for this state-wide consortium. Brian is also currently serving on the Customer Advisory Council as the Higher Education Representative for the Department of Information Resources.
